Ryan's Journey				
Ryan selects Gilman, Pangea, and P103 lot as his tracked parking structures since they are the closest parking lots to his early classes.	Ryan arrives at Gilman, but is unable to find any available parking and is stressed out.	Ryan opens the UCSD app and checks the status of his tracked parking lots. he sees that Pangea has available parking.	Ryan changes his destination to Pangea and drives over to the new structure.	Ryan arrives at the new parking structure and is able to find student parking
